SpeedNet provides Complimentary Internet Service for State Little League Tournament

Saginaw, Michigan, July 19, 2008 – SpeedNet, LLC announced today they will be the complimentary internet service provider for the State Little League Tournament hosted by Southwest and Northwest Little League of Bay City.

“SpeedNet is honored to be asked to be involved in such a tremendous event for the community of Bay City. Baseball is a very popular sport in Bay City and the surrounding areas and to have the opportunity to have such a tournament as the State Championship tournament in Bay City is great. For Southwest Little League of Bay city to invite us to be the internet service provider during the tournament is greatly appreciated. SpeedNet enjoys supporting community events especially those events that support tomorrows generation” said Will Bentley-Sales and Marketing Manager.

SpeedNet, LLC provides High Speed and Digital phone service to Residential, Business, Educational and Government. Offering up to 5 Mbps high speed internet and providing digital phone service in Michigan.
